

Introduction

Good morning sir, I am basan nofal from palanpur and I am 20 year old.

I completed bachlour degree in bsc(ca & it) from hngu.

Well, my technical skill are MERN Stack, Sql and react native, I have good knowledge of mern stack and I already worked on many project of mern stack. And I also created 2 mobile application using react native. And I also use sql and mongodb as database.

And we talk about my soft skill, so I have good problem solving skill and team management

Something about your family background

There are 5 member in my family including me. My parents and my little brother and sister.

My father doing job in private company and my mother is house wife.

My brother and sister are students.

Why to choose IT? Not other ?

Fisrt i am science student and my parent also want to I will go on medical field and they also call me to choose medical field but I interested on it field so first my reason of for choosing it is my instrest

And second thing is there are number of advantages, such as high demand skill, multiple career opportunities, constant innovations in this field

Why you choose our company

As a fresher, I want to learn many thing which Is not leaned during my collage and internship and I want to grow in my career.

I believe your company's provide best environment to learn new things and help me to enhance my technical and communication skill.

What is your salary expectation

I have enjoyed my internship where I earned 10,000 per month. Considering my skills, education, and the industry standards for entry-level positions, I am aiming for a salary in the range of 20k to 25k. However, I am open to discussion, and I am more focused on finding the right opportunity to grow within the company.

How would your rate yourself for mern stack

Say with smile if interviewer will be friendly (if i give rating from my point of view then i rate myself 10 out of 10). but i know something must be missing during my internship period and college time so i give myself 8 out of 10 for mern stack

As you know and I mentioned many project on my resume which is mostly created from mern stack so I can give this rating for my self

Why should we hire you?

With relevant skills gained during my 6-month internship, and my strong academic background, and a passionate commitment to contributing effectively, I believe I can quickly make valuable contributions to your team.

Do you have any question about company?
